The percentage of participants ever enrolled in a work activity will always be less than 100% because of the following: the allowed 95 day period prior to mandatory work activity, case closures, changes in exemption status, and transfers.

Participants Employed. Percentages relate to the number enrolled.

## VIEW TIMELINESS MEASURES

Timely Enrollment. This shows if localities are enrolling referred individuals in VIEW within 30 days as prescribed in policy. The first column reflects the percentage of timely enrollments in state fiscal year (SFY) 2005. The second column reflects activity in the month alone.

	SFY 2005	September	
EDD7 (Culpeper Region) -	94%	100%	(111 mo. implementation)
EDD9 (Lynchburg Region) -	93%	100%	(108 mo. implementation)
EDD2 (Bristol/Galax Region) -	92%	97%	(105 mo. implementation)
EDD6 (No. Virginia Region) -	90%	94%	(102 mo. implementation)

EDD10 (Danville Region) -	92%	100%	(99 mo. implementation)
EDD5 (Winchester Region) -	91%	83%	(96 mo. implementation)
EDD18 (Eastern Shore Region) -	91%	95%	(96 mo. implementation)
EDD16 (Petersburg Region) -	85%	88%	(93 mo. implementation)
EDD12 (Richmond Region) -	88%	93%	(90 mo. implementation)
EDD4 (Harrisonburg Region) -	87%	89%	(87 mo. implementation)
EDD8 (Charlottesville Region) -	93%	95%	(87 mo. implementation)
EDD13 (Fredericksburg Region) -	85%	86%	(87 mo. implementation)
EDD14 (Northern Neck Region) -	73%	100%	(87 mo. implementation)
EDD1 (Southwest Region) -	94%	97%	(84 mo. implementation)
EDD3 (Roanoke Region) -	93%	96%	(84 mo. implementation)
EDD11 (Southside Region) -	73%	95%	(84 mo. implementation)
EDD15 (Peninsula Region) -	96%	97%	(84 mo. implementation)
EDD17 (Tidewater Region) -	92%	95%	(84 mo. implementation)

In calculating this measure, case closures and other changes are accounted for, so the theoretical goal is 100%.

Timely Placement in Work Activity. This would show if eligible participants are in a work activity on the 95th day after referral. The first column would reflect the percentage of timely enrollments in state fiscal year (SF Y) 2005. The second column would reflect activity in the month alone. Enough time has not passed in the SF Y for there to be entries. The first entries will be in the October 2004 report.

EDD17 (Tidewater Region) -	N/A	N/A	(84 mo. implementation)

\  
In calculating this measure, closures and other case changes would be accounted for so the theoretical goal would be 100%.

Status of Waiting List for Enrollment. This measure shows the number on the waiting list for enrollment for over 30 days, as of the end of September (point-in-time data). It includes the average number of days over 30 for those who were past due for assessment. Some referrals to the waiting list are made in error, and there may be a lag time in correcting them. This is the reason for the sometimes remarkably high number of average days.

EDD7 (Culpeper Region) -	2 persons	47 days	(111 mo. implementation)
EDD9 (Lynchburg Region) -	4 persons	35 days	(108 mo. implementation)
EDD2 (Bristol/Galax Region) -	12 persons	32 days	(105 mo. implementation)

The rankings are displayed to provide some indication of relative standing. They are not intended to represent scaled performance measures. Ties were resolved by carrying out the numbers to greater detail than displayed, and then if ties remained, FIPS code order was used. The calculation of scores was begun in May 1999 to make the determination of a combined rank more equitable. See the bottom of the endnotes on page 50 for an explanation of how the scores are calculated.

The rankings are displayed to provide some indication of relative standing. They are not intended to represent scaled performance measures. Ties were resolved by carrying out the numbers to greater detail than displayed, and then if ties remained, FIPS code order was used. The calculation of scores is done to make the determination of a combined rank more equitable. See the bottom of the endnotes on page 50 for an explanation of how the scores are calculated.

## ***Definitions of Selected Terms Contained in Report***

**Average Monthly Earnings.** This is the average monthly earnings of the unsubsidized jobs that participants obtained. The value is calculated by multiplying the hourly wage by the weekly hours worked by 4.3 average weeks per month. For the cumulative figures the initial wage and initial hours are used. For the current figures, the initial wage and most current hours are used, except for the November 2001 report which used initial hours. Earlier than June 1999, wage changes that were entered overwrote the initial wage, so prior to that date, the cumulative figures used the initial hours and the last wage entered.

**Average Wage.** The average of the wages reported for each occurrence of unsubsidized employment. After June 1999 the wage is the wage at hiring, that is, the initial wage. Prior to June 1999, that wage may have been updated if changed during employment.

**Cases Closed with Employment.** These are TANF or TANF-UP cases that are closed with an indication in the data base of employment at the date of closure. It does not mean that the case necessarily closed because of employment. For example, a TANF case may have an indication of closing at the client's request, along with indication of existing employment in VIEW. That case is counted as closed with employment.

**Community Work Experience.** Unduplicated count by locality of VIEW participants who were assigned to work for their benefits at public or non-profit organizations.

**EDD.** This stands for Economic Development District. EDDs were developed during the administration of Governor Allen. They generally are not longer in use. This report continues to refer to them because VIEW was phased in by EDD and their use provides consistency over time.

**Enrolled.** Unduplicated number by locality of TANF recipients who were interviewed, received an individual assessment, signed the Agreement of Personal Responsibility, and enrolled in the VIEW program. Because the count is by locality, a recipient may be counted once in more than one locality. The fiscal year to date numbers include those who were enrolled at the beginning of the fiscal year as well as those enrolled during the year. There are clients enrolled in VIEW who have had their TANF case closed because VIEW policy requires that the enrollment remain open for job follow-up after employment. At the end of a month, normally about twenty percent of those enrolled in VIEW are not receiving TANF.

**Full Employment Component.** Unduplicated count by locality of VIEW participants who obtained subsidized employment with a private sector employer. The recipient's TANF and Food Stamp benefits are used to pay the employer a subsidy to offset the employer's cost of training the recipient for the job.

**Full Time Jobs.** Number of jobs obtained at 30 hours a week or greater.

**Number of Cumulative Jobs.** Total number of unsubsidized jobs obtained by participants. A participant may have one or more jobs during enrollment; this is one or more occurrences of employment involving one participant. In earlier reports, this item was called Entered Employment.

**On the Job Training.** Unduplicated count by locality of VIEW participants who were assigned to obtain direct on the job training with a specific employer.

**Participants Assigned to Inactive.** Inactive is a status assigned to participants who cannot participate in the VIEW program for reasons other than being exempt. Examples are unavailability of child care, unavailability of transportation, and mental or medical problems that make participation impractical. Inactive participants are due to be reviewed each month. While in inactive status, the 24 month time limit for TANF benefits is suspended.

**Participants Employed.** Total number of participants by locality who ever obtained an unsubsidized job, either full time or part time. If employed more than one time, they are still only counted once, but may be counted in more than one locality. Also, these participants may have left their job and not gotten another one. For the year to date numbers, those employed at the beginning of the fiscal year are included as well as those who first became employed in the fiscal year.

**Participants in a Work Activity.** Unduplicated count by locality of persons who have been in any of the work activity components; they are employment, full employment, community work experience, and on the job training. For example, a person who was in community work experience and then employed would be counted only once. For the year to date numbers, those in a work activity at the beginning of the fiscal year are included as well as those who first entered a work activity in the fiscal year. It should be noted that for federal reporting, clients in job search for a limited time are considered to be in a work activity. However, job search is not counted as a work activity for this report.

**Part Time Jobs.** Number of jobs obtained with fewer than 30 weekly hours.

**Referred.** Unduplicated number of TANF recipients by locality who were determined eligible for VIEW and had their names referred to the automated VIEW list for participation.

**Five Months Employment.** This represents the percent of all participants that were employed five months after their first employment. Participants who are employed in any job five months after their first employment are counted in this measure.

**Three Months Employment.** This represents the percent of all participants that were employed three months after their first employment. Participants who are employed in any job three months after their first employment are counted in this measure. For year to date percents, the calculations are based on the first employment that began one year before the end of the report month. That employment may not have been the first ever for the participant. The year to date percents were calculated differently in reports before September 2004. Also for year to date percents, transferred cases were not counted for months after the January 2002 report.

**TANF / TANF-UP Payment Cases.** Up to November 2003 these counts were taken from a monthly report with no adjustment. After that, the monthly counts included some cases that were being paid because child support payments had been received and were being passed on. The counts were then adjusted to mostly eliminate those additional cases. Further adjustment may be appropriate. It should also be noted that the counts include both strictly TANF cases and MOE cases. With the end of waiver provisions in July 2003, a substantial part of the caseload was placed in a state program and funded with MOE funds. This change in July 2003 was a change in funding, not a change in eligibility requirements or case payment amounts.

**General Statement About Accuracy.** The report is based on an extract from the Employment Services automated system. The extract is normally made the night of the first work day after the end of the report month. Data that staff of local social services agencies enter into the automated system after the time of the extract are not included in the report, even though the activity reflected actually occurred in the report month. However, that data, and the activity reflected, are included in the reports for subsequent months. Further, because the data are entered by staff in the 120 localities, the accuracy of the data in the data base is, of course, subject to inadvertent error.

This month marks a change in how the three months employment percents are calculated for year to date. The new method looks back to employments that began a year before the end of the report month not to the beginning of the fiscal year as was previously done.

<sup>1</sup> Applications are not necessarily acted upon in the month that they are received. Also, applications may be transferred from regular TANF to TANF-UP and vice versa as they are processed.

<sup>2</sup> September 2004 TANF cases paid are prior to possible adjustment. See definition of payment cases. Note that a VIEW case may remain open for job follow-up after the corresponding TANF case closes.

<sup>4</sup> A case may be open in more than one locality during the time period.

<sup>5</sup> Prior to June 1999, when individuals were transferred from one locality to another, their history was transferred as well. This may have an effect on a locality's cumulative VIEW statistics.

<sup>6</sup> Minimum wage is \$5.15. The average wage includes full and part time, unless otherwise indicated. See the definition of average wage on page 48.

<sup>7</sup> Includes full and part time earnings.

<sup>8</sup> This represents the percent of all participants that were first employed three months or more before the end of the report month and who were employed three months after the date of that employment. Employment may or may not have been continuous. Numbers for SFY 2005 will first be available in the October 2004 report.

<sup>9</sup> This represents the percent of all participants that were first employed five months or more before the end of the report month and who were employed five months after the date of that employment. Employment may or may not have been continuous.

<sup>10</sup> Number includes TANF-UP and represents cases carried over to the next month. Note that a VIEW case may remain open for job follow-up after the corresponding TANF case closes. Normally on average, about 20 percent of VIEW cases have had their TANF case closed.

<sup>11</sup> Enrollment is timely if done within 30 days of referral.

<sup>12</sup> Placement in a work activity is timely if a participant is placed by the 95th day after referral.

<sup>14</sup> As of October 1, 2004. Some referrals to the waiting list are not appropriate, and there may be considerable lag time in correcting them..

The scores in the VIEW Rankings are determined by placing a locality on a scale of zero to ten in the same relative position as its place in the difference between the high and low of the measure in question. This converts all measures to a similar scale and provides a more equitable way to combine the ratings in each measure to determine a combined rank. (Questions, please call 804 726-7618.)
